Ecole Polytechnique	Paris, France

RESEARCH

Principal Interests

B.S. in Math and Physics (Diplôme d'ingénieur)

My research interests span empirical accounting and economics. I am interested in studying the effects of disclosure on the functioning of capital and product markets. I am also interested in studying market efficiency issues. Topics that I am currently pursuing include information spillovers, auditing, disclosure, pricing anomalies, mergers and acquisitions, market reactions to earnings announcements and security analysts' forecasts and recommendations.

Sept 1996-June 1999

Publications

"Inter-Industry Network Structure, Information Transfer, and The Cross-Predictability of Earnings and Stock Returns" with Judson Caskey and N. Bugra Ozel *Review of Accounting Studies* (Forthcoming)

• Paper accepted for presentation at the 2013 Review of Accounting Studies Conference

Working Papers

- "Unionization, Product Market Competition and Strategic Disclosure" with Lin Cheng
- "Underwater shares and benchmark beating" with Judson Caskey
- "Capital Market Consequences of Individual Audit Partners" with Chan-Jane Lin and Reining Petacchi

- "Non-Compete Agreements, Product Market Competition, and Company Disclosure"
- "Proprietary Information Spillovers and Supplier Choice: Evidence from Auditors"
- "Seasonality in Market Reactions to Quarterly Earnings Announcements" with David Aboody and Jack Hughes
- "Investor Cost Basis and Takeover Bids" with Judson Caskey
