Two-Year MBA
Class characteristics for the accelerated One-Year program are similar to those of the Two-Year program with the exception of undergraduate majors. This program requires an undergraduate business degree or equivalent courses, training and work experience.

Master of Management and Manufacturing
Most students in this program have engineering degrees and manufacturing experience. They represent 29 undergraduate institutions and 18 majors and include 11% female, 29% minority, and 18% international students. Other characteristics are similar to those of the Two-Year class.
