Summer Quarter- Saturday Traditional Program

The Leadership Career Series (LCS) elevates and amplifies your student experience with a focused, highly personalized series of leadership assessment and career development sessions. LCS encompasses four full day, content-rich working sessions with virtual content in between to prepare you for the live sessions as well as information on how to follow through on actions after the live events. You will reflect on your goals and aspirations, sharpen your skills and develop action plans for becoming a better leader and proactive manager of your career.

LCS positions all students for success as you manage your customized career and leadership development. For some of you, this may include On-Campus Recruiting (OCR) if it is right for you. If you do end up participating in OCR, you will do so in your final fall quarter. As such, you will need to complete LCS 3 and 4 during the previous winter and spring.

Below is the suggested timeline for completion of LCS for someone who begins Kellogg in the Summer Quarter in the Saturday Traditional Program. This is based on a typical cadence of two classes per quarter. Please note that if you are considering accelerating, this may jeopardize the necessary completion time required for LCS and OCR. Please contact Alana Stegich Weisberg (a-weisberg@kellogg.northwestern.edu) if you are considering this to discuss timing.

All sessions must be taken in sequence and one quarter apart to allow for pre- and post-work in between sessions. Please check the LCS website for all specific live session dates.
