	Ryan Michael Kania		Weihua Zheng

Northwestern | Kellogg

To recognize the land is an expression of gratitude and appreciation to those whose territory we reside on — and a way of honoring the Indigenous people who have been living and working on the land from time immemorial. It is important to understand the long-standing history that has brought us to reside on the land and to seek to understand our place within that history.* The Northwestern campus sits on the traditional homelands of the people of the Council of Three Fires — the Ojibwe, Potawatomi and Odawa — as well as the Menominee, Ho-Chunk and Miami tribes. It was also a site of trade, travel, gathering and healing for more than a dozen other Native tribes; the state of Illinois is still home to over 100,000 tribal members. Consistent with the University's commitment to diversity and inclusion, Northwestern works toward building relationships with Native American communities through academic pursuits, partnerships, historical recognitions, community service and enrollment efforts.
