At the Kellogg School of Management, our distinctive cross-disciplinary approach to research and teaching drives innovation, creates real-world insights for business leaders and focuses on the issues most critical to contemporary business. It also drives our Executive Education program design, ensuring that you are not only exposed to the most current business thinking, but are ready to immediately and practically apply insights in your organization.

Kellogg is known for a culture that fosters collaboration and challenges leaders to think innovatively. Our programs exemplify that culture by creating an immersive, supportive environment where insights emerge.

The majority of our Executive Education programs are offered in the unique living-and-learning environment of the James L. Allen Center, which creates an ideal context to step away from your usual routine and spend focused time learning from the faculty and your fellow participants.

We are located on the beautiful campus of Northwestern University in Evanston, Illinois, on the shores of Lake Michigan, just a short drive from Chicago. You will benefit from the perspective and resources of a major research university and a global mindset that instills an expansive view of the world and your organization’s role in it.
