

Merger Week

Creating value through strategic acquisitions and alliances

In-person

May 12-17, 2024

Oct. 20-25, 2024

\$10,700*

Mergers and acquisitions are anything but one-dimensional. This program will teach you how to take a multifaceted approach to any restructuring deal, considering how finance, leadership, negotiations and strategy each contribute to your organization's success.

Learn how to evaluate M&As from all angles and then implement a process that leads to the greatest value generation for your organization. This program will take you through the entire M&A process, from assessing strategic fit to considering market trends to making financing decisions and forming strategic alliances. Other topics include the search process, valuation techniques, negotiations, tax-free versus taxable transactions, joint ventures and international M&As.

Taught by leading scholars and practitioners — experts in the fields of finance, accounting, management and organizational change — this interdisciplinary learning experience blends academic theory with real-world application. You'll leave the program inspired and prepared to tackle new opportunities in the global marketplace.

“This was an excellent program that covered both the strategic and tactical elements of mergers, acquisitions and alliances. Subject matter experts, from both industry and academia, shared theory and current best practices. I highly recommend the program for those who want to go beyond the quantitative elements of basic M&A coursework.”

DIRECTOR OF RESIDENTIAL PRODUCTS, THERMA-STOR LLC

Key benefits

- Determine the shareholder value of a target company
- Identify and quantify sources of strategic fit
- Develop new strategies for acquisition and restructuring
- Develop a high-impact integration plan
- Manage and derive value from negotiations
